### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1, 2, 4, 5, 7-12, 20/1, 21/1, 22, 24-30 drawn to a combination, a shredder apparatus with a cylindrically shaped closed wall, classified in class 241 and including subclass 221;

Group II. Claims 13, 14, 15, 16, 17, 18, 19, 20/13, 21/13, drawn to a subcombination, a shredder apparatus, classified in class 241 and including subclass 235; and

Group III. Claims 39, 40, 42, 43, drawn to a subcombination, a shredder apparatus, classified in class 241 and including subclass 236.

The inventions are distinct, each from the other because of the following reasons:

Invention of Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed as evidenced by claim 22. For example, claim 22 of Group I does not require a shaft attached to the frame at the location of the first and second shaft ends. The subcombination has

separate utility such as it can obviously be used in any shredder apparatus and is not limited to the particular shredder apparatus of Group I.

Invention of Group I and Group III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed as evidenced by claim 22. For example, claim 22 of Group I does not require a bearing assembly located inwardly from the shaft ends. The subcombination has separate utility such as it can obviously be used in any shredder apparatus and is not limited to the particular shredder apparatus of Group I.

### ***Conclusion***

A telephone call was made to the attorney of record, Paul Craane, on July 8, 2005, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Y. Pahng whose telephone number is 571 272
